Subject: Proposed Title V E-Mail Notification

Dear Ms. Anderson:

As specified in the Memorandum of Understanding between EPA,
Region III
and the DNREC, attached is a proposed significant permit modification for
Permits: AQM-003/00016 - Part 1 (Renewal 1)(Revision 2), AQM-003/00016 -
Part 2 (Revision 2), and AQM-003/00016 - Part 3 (Renewal 1)(Revision 2)
for The Premcor Refining Group Inc having a facility at 4550 Wrangle Hill
Road in Delaware City, Delaware.

The Department received comments from Premcor in a letter
dated December
28, 2009. These comments are addressed in the Reconciliation Table
below.

Comment Reference
Comment Summary
Responses/Actions Taken by AQM

Premcor Premcor requests that the Department refrain from issuing the
final
versions of the Title V permits in light of the recent plant shutdown.
The shutdown may affect the content of the draft permits. AQM disagrees.
Premcor
has not identified what revisions, if any, should be made to the permits.
If Premcor identifies any necessary modifications, an application should
be submitted in accordance with 7 DE Admin. Code 1130.

Please note that the forty-five (45) day review period ends February 22,
2010. Please submit any comments on the proposed significant permit
modification on or before February 22, 2010.

Sincerely,
Bruce Steltzer
